Outdoor inspiration

Leaf Model 500

Leaf Model 500 unlit. A patio conversation piece even without a fire!

Laser cut from 3mm plate steel, Burley's **Garden FireCubes** create a beautiful feature for any garden and a stunning centrepiece to an evening around a fire. The mesmerising flicker of flames through the leaf shapes and the radiated warmth gives a simple gathering an atmosphere of relaxing reflection.

The **Garden FireCube** is finished in heat resistant high temperature matt black paint.

Touch up paint is included so the original colour can be maintained.

It is recommended if you wish to keep the finish for longer you protect your Firecube from the elements. Approximate height 850mm.
